

GLOBAL LEARNING COMMUNITIES TEACHER MANUALS

This series of manuals, books and curriculum units is designed to provide practical and useful ideas into how to improve aspects of our classroom practice. All available as hard copies or electronically.

I Teach: A Guide To Inspiring Classroom Leadership by Julie Boyd and Joan Dalton \$22.00A

I Teach provides specific insights into the 'what' and 'how' of quality learning, teaching and empowering leadership by focussing in very practical ways of five interrelated areas.

Creating Resilient Educators by Julie Boyd \$49.50A

Creating resilient young people requires teachers with an understanding of their own wellness, resilience and happiness. This manual is designed to help teachers understand and address the issues involved with interlinking personal, professional and organisational wellness. It is equally appropriate for individual learning or small group dialogue.

Learning Together: An Introductory Guide to Interactive, Cooperative and Collaborative Learning by Julie Boyd \$49.50A

This manual is based on information, strategies and activities used in the highly practical workshops run by GLC and designed to introduce teachers to the philosophy and practical strategies used in building collaborative classrooms which engage students in cooperative and fully interactive learning.

Active Cooperation and Learning \$49.50A

A Compendium of Generic Teaching and Learning Strategies and activities activities designed to assist teachers in the creation of collaborative learning environments for students for students of all ages.

This manual is the result of requests from many teachers, particularly secondary teachers who want to expand their repertoire of teaching and learning strategies. It is designed as a highly practical handbook.

A Guide for Learning Facilitators – The Art and Craft of Presenting \$49.50A

Presenting to peers or other adults is sometimes a daunting experience. This manual is designed to enable people to combine the persuasive art of presenting with the gentle craft of continuous professional growth. A must for staff meetings, consultants, workshops, dialogues, interactions and professional coaching.

Integral Curriculum for Effective and Relevant Learning by Julie Boyd \$49.50A

Designed to assist teachers to understand how to prepare curriculum for the convergence and alignment of learning environments, curriculum, pedagogy and assessment. Includes information on preparation and use of individual, classroom based and digital curriculum in a range of learning environments.

Effective Middle Schooling \$49.50A

Middle Schooling is a concept designed to address the issues of students at this particular stage in their development. This manual raises issues and addresses concerns about education for young people at this time of their lives.

Creating Resilient Youth

By Julie Boyd \$49.50A

Assisting young people to develop the skills of becoming resilient requires an understanding of the process of developing resiliency as well as an understanding of the skills required. This practical manual is a resource for teachers to use with students.
